Fibers so fine

BMCL makes them shine

BANGLADESH
MULTIFIBRES CO.
LIMITED

ABOUT **Bangladesh Multifibres Company Limited**

We take pride in our rich heritage of producing green and golden fibers, emblematic of Bangladesh's fertile soil. As part of the esteemed Promixco Group, we are dedicated to showcasing these fibers to the world, illuminating the essence of our nation's craftsmanship and innovation.

Our journey began with jute, the golden fiber renowned for its versatility and sustainability. Through meticulous craftsmanship, we transform jute into a myriad of useful and captivating goods, symbolizing the essence of Bangladesh on the global stage.

As we look towards the future, BMCL aims to broaden its horizons by embracing other indigenous fibers from Bangladesh. These fibers hold immense potential to emulate the legacy of jute and propel Bangladesh onto the global forefront of fiber innovation.

Mousumi Islam
Chairperson

Chairperson's Message

With a modest beginning in the trade and business in 2000, PROMIXCO has transformed itself into a conglomerate boasting 14 companies within its fold over time. These companies are now engaged in diverse areas of business, commerce, and industries. PROMIXCO has been consistently striving hard to become the market leader in hospital furniture, medical devices, pharmaceutical, agro-business, veterinary, fashion, furniture, engineering, and media industries. Indeed, in some of the areas, it acted as the pioneer and prime mover and is recognized as the leading brand. It excelled in quality, services, and commitment towards the stakeholders, and obtained and secured ISO, CE, and FDA certifications for its concerns. It tirelessly strived to equip a new breed of entrepreneurs in the import substitution medical equipment and devices sector. It played catalytic roles and worked with the government in recognizing and including medical device manufacturing in the National Industrial Policy 2022.

PROMIXCO is dedicated to delivering innovative and cutting-edge medical devices that revolutionize the healthcare industry. It exercises the best endeavor to improve patient outcomes and enhance the quality of life across the globe in general and Bangladesh in particular.

I express my immense gratitude and heartfelt indebtedness to all the employees, government, bankers, and all other stockholders who have consistently been my source of encouragement and power throughout the long journey of PROMIXCO in becoming a trusted Group of Companies.
